Cabrini's Night of Knight's Auction Held

From: Natalie Zelenak/Carole Noel

The Night of Knight's auction to benefit Cabrini schools was held on Saturday, April 9. This fun-filled event brought alumni, school families, parishioners and friends of Cabrini together to

enjoy tasty food samples, bid on a wide variety of items, and partake in the many raffle opportunities. The event was a record-breaking success! Many thanks to coordinator Lisa Hughes and her team and spe-

PROUDLY SERVING
ALLEN PARK FOR 30 YEARS

6004 ALLEN ROAD
(313) 382-4545

Former Navy SEAL and Swim Buddy Training for Boston Frogman 5K Open Water Swim

From: PJ Ramsey

It was a book from the local library that prompted an interest in the Navy SEALs for Grosse Ile native, PJ Ramsey. "It sparked my interest as a kid and growing up on an island, I always gravitated towards the water, it seemed like a good fit"

he explained. That interest led Ramsey to serving in the Navy from 2003 to 2018, with a majority of those years in the Naval Special Warfare community. "Being a Navy SEAL is the only job I ever wanted to do. I loved it so much and I can't think of a bet-

► continued from page 1
ter way to give back to your country than to serve during a time of war. Wild dreams are obtainable, but it came with tremendous highs and lows."

"One of the most important things serving with the SEALs forged in me was the mental fortitude to keep putting one foot in front of the other no matter how hard or painful a task was or life gets" Ramsey explains. In addition, he recognizes that team work and the value of the men that served alongside of him were key to his success in the SEALs.

Like many others that have served, Ramsey struggled with transitioning from service to civilian life. "I experienced some of the darkest and hardest months of my life after leaving the service" he explained. However, with the mental fortitude learned throughout his years of service and the help of the Navy SEAL Foundation, Ramsey has overcome many obstacles and has his

feet back under him. "It saved my life. The NSF assisted me with various treatments and post surgeries. The Foundation continues to reach out to him, offering support and guidance if I need it."

Now, Ramsey and his friend, Ashlie Mooney, are working to spread awareness and raise funds to support more Navy SEALS.

Both are participating in the Boston Frogman Swim to benefit the Navy SEAL Foundation. The event and fundraiser, being held on Sunday, June 12th is a 5K open water swim across the Boston Harbor to honor fallen warriors and help those in need.

"I'm now at a point in my life to be able to give back to the next guys coming down the line that need some help and support of their own" says Ramsey.

In addition to supporting her friend, Mooney works with many military families through her family's custom framing business, The Framery and

Gallery in Downtown Trenton. "We hear their stories and see firsthand how the loss of a loved one is soul stirring. This swim is a way to honor those fallen soldiers and support the family around them on an even bigger level" she explains.

The pair has been training since they registered for the event in January. "Right now, we're doing pool swimming about three times a week, until it warms up and we can get into the cold Detroit River. We've mapped out a few routes around Grosse Ile to practice in open water, hopefully we'll start later this month"

explained Mooney.

Swimmers in the event are strongly encouraged to raise at least \$2,000 to support the Navy SEAL Foundation. One hundred percent of the net proceeds go directly to support the NSF. To make a donation to support Ramsey and Mooney, visit <https://impact.navysealfoundation.org/fundraiser/3781145>.

ALLEN PARK POLICE

Allen Park Police Department Weekly Summary

LARCENY FROM AUTO

Date: 4/6/2022

2022-2889
APRIL 6, 2022 -
0528HRS
Victim Vehicle:
2021 HONDA AC-
CORD
Property Stolen:
One (1) Apple iPhone
USB charging cord -
white
\$60.00USD - un-
known assorted
denomination
Circumstance:
An Officer was dis-
patched to Cicotte
Ave for a larceny from
auto complaint. Upon
arrival, the Officer
spoke with the victim,
who stated he came
out to find his vehicle

Location: CICOTTE AVE.,
ALLEN PARK
Time: 5:28 AM

rummaged through and items missing. Upon looking into the vehicle, various paperwork was thrown throughout the vehicle and the glove box was left open. He stated he arrived home at an unknown time from work, and parked his vehicle on Watson Ave, as his house is the N/E corner at Cicotte/Watson. He discovered his vehicle broken into at approximately 0528Hrs. The vehicle was left unlocked, and the vehicle did not sustain any damage.

WELL BEING CHECK

On 04/04/2022, An Officer met with the victim at APPD regarding a fraud complaint. He states he uses Sprint for his business, and someone added five phone lines to the account. He did not add phone lines and authorized no one to do so. He was advised to file a complaint to have the charges of \$790.00 reversed.

ALLEN PARK ATHLETICS

ON THE SIDELINE: WAR OF 1812, MADONNA, TIME ZONES AND SURFING

By Don Richter
drichter101@comcast.net

They say knowledge is power.

Or is it wisdom is power?

I don't know.

Obviously I have neither knowledge nor power. Wisdom? I don't think so. Don't you have to live on the peak of some remote mountaintop to have wisdom? A mountain where people come from miles away to venture to the top in search of wisdom and answers to questions that have puzzled them for years.

Maybe people did that in ancient times. But in today's world all one has to do is "surf" the Internet.

This past week I grabbed my "surf board," turned on my computer and caught wave after wave in the never-ending, seemingly unfathomable "ocean" called the Internet.

Here are a few bits of wisdom or knowledge or, better yet, useless information I gleaned from searching the Internet and going down one rabbit hole after another in search of answers to questions I never knew I needed to know.

Did you know Michigan's Upper Peninsula is farther

east than Atlanta, Georgia and farther west than St. Louis, Missouri? Land-wise, the U.P. is larger than Switzerland. The Upper Peninsula is so expansive it has two time zones — Eastern and Central time zones. So when it's 5 pm in Sault Ste. Marie in the eastern U.P., it's 4 pm in Ironwood in the extreme western U.P.

Did you know Madonna lived in Room 10A (now Room 1001) in the University Towers at South University and Forest Avenue in Ann Arbor while a student at the University of Michigan?

The future Material Girl attended U-M on a dance scholarship from 1976 through 1978 before departing for New York City and eventual legendary pop icon status. In fact, in 1976 Madonna and a few friends went out to the Blue Frogge (now Rick's American Cafe) at 611 Church Street just south of South University for a night of fun. While at the Blue Frogge that night, Madonna met a waiter there named Steve Bray. The two hit it off and talked all night about their mutual love of music.

They would later date off and on while Madonna was at Michigan. They remained close even after the Material Girl moved to New York City and achieved super stardom. In fact, Bray a talented musician himself, co-wrote with Madonna and produced such mega-hits as "True Blue,"

"Express Yourself," "Causing a Commotion," "Keep it Together" and "Into the Groove" among many other songs. Next time I drive by Rick's I'll think of that serendipitous meeting in 1976 between that Blue Frogge waiter and the young dance scholarship student — and the great music and songs they would write and produce together later in their lives.

Nine years before Madonna moved into the University Towers as a freshman at U-M, next door at 524 Forest Avenue graduate student Ted Kaczynski lived in a rental home. Kaczynski is now better known to the world

as the "Unabomber."

Did you know writer, poet, scientist, playwright and statesman Johann Wolfgang von Goethe's last name is pronounced "Ger-ta?" I always thought it was pronounced "Go-eth." The book "Faust" is Goethe's most famous work. Goethe lived from 1749 to 1832.

Did you know the War of 1812 started in Michigan? One of the earliest military actions of the war occurred when the British attacked a small garrison at Fort Mackinac on Mackinac Island on July 17, 1812. The surprise, early morning attack was a bloodless takeover of the fort by the British.

Finally, a World War II tidbit I learned recently on an Internet "surf." The "surrender table" used during the Japanese's official surrender (and all the surrender papers and documents Japanese officials signed ending the war) aboard the USS Missouri was a table made in Grand Rapids by Steelcase. The table was actually a mess hall table, but the grand, opulent-looking table originally chosen for the official surrender proceedings, was found to be too small for all the surrender papers, booklets and documents. A mad dash by a group of sailors aboard the USS Mis-

souri saved the day as they were ordered to find a replacement table large enough to fit all the surrender documents. The Grand Rapids Steelcase lunch table was selected and brought up on deck and quickly adorned with a fancy table cloth just as the Japanese delegation was nearing the ship. The Steelcase surrender table is currently housed at the U.S. Naval Academy Museum in Annapolis, Maryland.

They say knowledge is power.

Or do they?

I don't know.

Let me climb on my "surfboard" and catch an Internet wave and find out...

Allen Park Student Takes Third in VFW National Competition

Esse is awarded the \$10,000 third place scholarship prize

► continued from page 1 has been named the national third place winner and recipient of the \$10,000 VFW Scholarship award in its 2021-2022 Voice of Democracy scholarship program.

The announce-

ment was made during a virtual Parade of Winners ceremony hosted live on Facebook, which was sponsored by Twist-X. VFW Post 9283 located in Southgate, Michigan, sponsored Esse.

"While we weren't able to meet in person again this year, we didn't let that stop us from celebrating these students' impressive accomplishments," said VFW National Commander Fritz Mihelcic.

"This evening's event successfully shined the spotlight on all of our VFW Department (state) winners across the nation. The VFW was honored to present America's top high school students with more than

\$211,000 in scholarships and awards, bringing this year's grand total to more than \$3.4 million presented at the national, state and local levels of our youth essay competitions."

Open to eligible

high school students in grades 9 through 12, the VFW's annual Voice of Democracy audio-essay program requires entrants to write and record a three- to five-minute script on a democratic, patriotic theme. This year nearly 25,000 high school students from around the world submitted essays for the competition, with 53 advancing to compete at the national level.

CABRINI ATHLETICS

CABRINI GIRLS SOCCER

CABRINI GIRLS SOCCER RESULTS

From: Steve Dolunt

On Monday, April 11th, the Cabrini Girls Soccer team traveled to Detroit to face Cristo Rey. The game was played at Historic Fort Wayne, on the banks of the Detroit River, but this was hardly a battle after the first half, as Cabrini rolled to a 8-0 victory.

The Lady Monarchs jumped on their opponents almost immediately. Sophomore Elaine Teed scored the first Cabrini goal thirty seconds into the

match. Freshman Carly Roth scored the second goal within the first ten minutes. The Monarchs went into the half with a 2-0 lead.

The second half was a different story, as Cabrini played a more technical game. The girls making strong short passes and moving the ball up the field more quickly, allowed Cabrini to control the game. Teed was the first to score, picking her second goal of the game, followed by Maddy Glazier

who scored back to back goals for a 5-0 lead. But the Monarchs weren't done yet. Sophomores Ava Teed and Marissa Smith joined the fun, each scoring one goal a piece. The Monarchs ended the scoring and the game when Senior Claire Moloney fed her fellow classmate Abby Portmann, for the final goal, resulting in an 8-0 victory called due to the mercy rule being put into effect.

From: Steve Dolunt

On Thursday, April 11th, Cabrini hosted Grosse Pointe University Liggett in a CHSL doubleheader. The Monarchs took the first game 7-5 in a hard fought battle of league rivals.

Sophomore Brianna Manning went the distance in the victory, giving up 4 hits and 3 walks while ringing up 8 strikeouts and giving up only 3 earned runs. She was backed up defensively when Senior catcher Samantha Graf pegged a runner trying to steal second and on a double play executed by Sophomore Ashley Pelc, who tracked

down a fly ball and fired a bullet to Senior shortstop Ella Nowc for the second out.

Offensively, Freshman Aryanna Sandusky had another big game with two singles, a double and one RBI. Junior centerfielder Mary Schantz had two singles and drove in three runs. Graf, and Freshman Sarah Neubecker drove in the other Cabrini runs. The Monarchs also scored one unearned run to end the scoring. Nowc was a blur on the basepaths as she swiped four bases.

Game two proved to be much easier for the Monarchs, as they cruised to a 10-4 victory. Manning went the distance giving up six hits, walking 3 and striking out four. Patience at the plate proved to be a harbinger of things to come. The Monarchs were issued 9 free passes in game one and eight in game two.

The Monarchs only scored five earned runs in the game. Sandusky had three RBI, Manning and Neubecker contributed the other two. Schantz had three singles and Manning two. Neubecker and Nowc contributed singles and Sandusky had a single and a double. Overall, a strong performance by Cabrini.

CABRINI COLLEGE SIGNING

From: Steve Dolunt

On April 5th, Cabrini Senior Ania Ghazzawi announced her commitment to play basketball beginning in the 2022/2023 season with Oakland Community College. The head coach of the Raiders, Josh Lees, came to Cabrini for the signing. Ghazzawi, a point guard, scored a total of 158 points this past season. According to the Monarchs coach, Karen Jabczenski, "She is a complete work horse on the court adding 160 rebounds, 60 assists and 51 steals to the season."

Ania was joined by her mother Sarah Henson, Coach Jabczenski and several teammates for the celebration of her signing. The Cabrini Athletic Department as well as the entire St. Frances Cabrini parish wish her continued success at the collegiate level.

Pictured in the back row are teammates (L-R) Elaine Teed, Niamh O'Connell, Ava Teed, Coach Jabczenski, Nicole Jabczenski and Kaitlyn Jabczenski. Front row: Ania and Sarah Henson. Photos by Sara Forystek.

Dearborn Heights / Wade Trim perform drone aerial survey of Ecorse Creek to help identify significant problem areas

Wade Trim Engineer/Drone Pilot Jason Yoscovits prepares his drone for last week's fly-over survey of Ecorse Creek. The survey will provide important data regarding several physical characteristics of the creek that could contribute to flooding problems, as well as help identify blockages that exist.

Wade Trim Engineer/Drone Pilot Jason Yoscovits point out some of the capabilities of the drone he used to perform last week's aerial survey of Ecorse Creek to Dearborn Heights Mayor Bill Bazzi.

Wade Trim Engineer/Drone Pilot Jason Yoscovits and Dearborn Heights Mayor Bill Bazzi pose with the drone that performed the aerial survey of Ecorse Creek.

From: Robert Ankrap

In an effort to help identify specific problem areas of the flood-prone Ecorse Creek, the City of Dearborn Heights, through Wade Trim, its Civil Engineering contractor, recently completed a hi-tech aerial (drone) survey of the creek between Inkster Road and the Southfield Freeway. The purpose of the survey is to capture a profile and take crucial measurements of the creek and the surrounding shorelines. The information will help identify specific problem areas in order to help correct issues that contribute to the restriction of water flow (such as restricted/plugged storm outlets), as well as help identify significant blockages (downed trees, logs/brush/debris/etc.) that also restrict water flow.

"This is one of the

first concrete steps toward providing "boots on the ground" solution to this on-going problem" commented Dearborn Heights Mayor Bill Bazzi. In spite of the many studies and meetings that have taken place in the past, I'm glad to say we are at the point where we can see definitive steps toward actually addressing the problem. This survey will give us a detailed look at exactly where the "bottlenecks" exist, so we can go after these problem areas efficiently. We are working on additional plans to help reduce the threat of flooding as well, but this first step is the one we really need to get started on the actual work."

The survey, which was executed by an engineer (and FAA certified drone pilot) from Wade Trim, consists of a series of still photos "stitched" together (as

opposed to traditional video footage) which allows a far more accurate, efficient and comprehensive analysis. It collected not only creek channel data but will also cover surrounding areas to a distance of 125 feet from creek's centerline in each direction. Data collection will include Real-time Kinematic (RTK), geo-rectified imagery to produce photogrammetric reconstruction of the hard surfaces of the entire run of the creek in the city. This is a detailed engineering quality survey which can later be utilized to show precise areas of concern to target our efforts where they can produce the most benefit.

The drone technique, now a widely-preferred technique for these types of needs, provides a precise aerial survey containing geo-located measurements and land contours, where in the past, a team of several engineering

staff would be required to walk the entire creek with bulky equipment. The fly-over was completed in one day with one pilot, as opposed to requiring a minimum of several days (and several staff) by utilizing the "old" method. The survey which cost approximately \$13,000 to complete.

As an aeronautical engineer by education and profession, Bazzi was impressed. "The technology behind this equipment and its implementation is impressive. It is providing us with a far more accurate assessment of the condition of the creek – and the specifics regarding the problem areas we need to focus on – in a way that is far less labor-intensive than the older, traditional methods, and far less costly.

"This was a great step forward" Bazzi continued. "We still have a lot of work ahead of us, but finally, we are getting down to the actual work."

Wade Trim Engineer/Drone Pilot Jason Yoscovits launches his drone that was used to perform the aerial survey of Ecorse Creek.

Aerial shot of Mayor Bill Bazzi and Dearborn Heights Staffers John Zadikian and Bob Ankrap as they observe the drone piloted by Wade Trim Engineer/Drone Pilot Jason Yoscovits as it embarked on its survey of Ecorse Creek.

Aerial view of the grounds near Ecorse Creek near Inkster Road as it begins its survey. The drone performed its flyover/survey of the creek between Inkster Road and the Southfield Freeway.

Fall Hours Begin

As summer ends the Allen Park Public Library is expanding the hours the building is open as well as curbside appointments.

Monday, Tuesday, and Thursday the library will be open from 10:00am until 8:00pm

Wednesday, Friday and Saturday the library will be open from 10:00am until 3:00pm

Curbside hours will run all day during our open hours and end 15 minutes before we close

Monday, Tuesday, and Thursday the library curbside is from 10:00am until 7:45pm

Wednesday, Friday and Saturday the library curbside is from 10:00am until 2:45pm

Library Building Open with Restrictions

July 1, 2021

- Masks are required*
- Current Summer Hours of operation will continue
- Computers are available for up to four 60-minute sessions per day for users with a valid library card
- Visitors may use the computer for 30-minutes at no charge
- No charge for printing up to twenty black & white pages
- Curbside services are still available (by appointment)
- Meetings, events, group gathering/study prohibited
- Materials can be returned to either the inside or outside Dropboxes
- Late fines for Allen Park materials are not assessed
- Donations are accepted. Please limit donations to one box or bag and bring donations to the Circulation Desk. Donations left outside will be discarded.
- Please do not enter the Library if you are not feeling well. We will be happy to provide library materials to you via Curbside Delivery.

*Individuals who are fully vaccinated against COVID-19 (two weeks past the date they received their final vaccine dose) may enter the Library without a mask. For those who are not vaccinated, a mask covering the nose and mouth is required while in the Library. Patrons who do not have a mask will be offered one. Patrons who cannot wear a mask will be able to access library materials via no-contact Curbside Delivery but must leave the building.

Farmers Market in AP is now Open

By: Jim Jacek

The Allen Park Farmers Market opened the season on Friday, April 15. The market is held on Park Avenue. These are some of the vendors that participated in the show. The farmers market takes place on Fridays from 3pm to 7pm.

**Shannon Bagdonas - Realtor®
w/ MI Real Estate Source, LLC**

States Shannon: "I am good standing Member of the South-eastern Boarder of Realtors and National Association of Realtors.

I live and work in Allen Park. I have 5 children (all either currently in or graduated from Allen Park High School), I also have 3 grandchildren.

This city has my heart and I love my village – which is why I specialize in Allen Park!

What sets me aside from all the other realtors in the area? Though I have only been a realtor for going on 3 years, I have been a paralegal for over 15+ years handling tons of real estate transactions over the years. Having knowledge I gained from law classes and working in the legal field allows me to give service of expertise and knowledge to my clients. Having peace of mind and happiness at the end of any sales closing is a feel-

ing everyone should have! Being in law for so many years has dovetailed very well allowing me to specialize in real estate sales that require extensive legal knowledge including probate/estate sales, large commercial sales, real estate investor sales, and Divorce sales. This helped me a lot last year with a majority of my sales, in which I was honored as 2021's Realtor Rookie of the Year by the South-eastern Border Association of Realtors.

For more information on this award: <https://sebrealtors.com/about-us/docman-pdf-test>

I am licensed in the entire state of Michigan and do many sales (buying and selling) in all areas of Michigan surrounding all of our Great Lake areas! I will travel all over the state for my clients - I recently just had a closing in Grayling!

I am a member of St.

Francis Cabrini in Allen Park. I am very thankful for the network of my village which has helped me succeed in my business. I believe it is important to be involved in your community, to help when asked, and to give back when you can.

My oldest is a Marine, serving his 2nd term overseas. I always donate back to the Freedom Center and other military based charities. When I close on a sale in which my buyer or seller is either currently active or is a Veteran, I give them the option to pick a charity of their choice, in which I donate in their honor!

For the month of May anyone that signs with me as a buyer or seller, I am donating a percentage of my sales commission to a charity of my client's choice!

Thinking of Selling or buying – Call/Text anytime (313) 766-8387 - Let's talk Real Estate!"
